

# Monitoring Compliance for Directive 2006/66/EC on batteries and accumulators and waste batteries and accumulators

Recycling Efficiencies of the recycling processes on waste batteries and accumulators according to REG 493/2012

Theme :08.2 - Provide quality environmental statistics

Domain :WASTE

Dataset :WASTE\_BATT2\_A

Year :2017      Reference period :A      Country :SK      Status :Transferred

	2017-Annual											
	Minput Total(T)		Moutput Total(T)		Recycling Efficiency (%)		Minput(T)		Moutput(T)		Rate of recycled content(%)	
Lead-Acid Batteries	6240.000		5647.700		90.51		4546.000		4418.100		97.19	
Ni-Cd Batteries	86.767		68.525		78.98		14.160		6.975		49.26	
Other Batteries	356.200		240.000		67.38
