INTRODUCTION

The Parties to the Basel Convention are required, in accordance with Articles 13 and 16 of the Convention, to inform each other, through the Secretariat of the Basel Convention, on issues related to the implementation of the Basel Convention. To facilitate reporting by Parties, the secretariat has revised the questionnaire on “Transmission of Information”. The revised questionnaire consists of two parts, namely, Part I: Status of information; and Part II: Annual reporting.

Part I: Status of information: to further facilitate reporting, Part I of the questionnaire is pre-filled by the secretariat (provided that Parties have reported for the year 1999 and/or onwards, in the required format).

Part I essentially covers those issues for which information provided by Parties usually remains the same as that reported during the previous year(s). While updating the pre-filled questionnaire, if there is any change in the information provided (including necessary corrections or deletions) during the previous reporting period, it needs to be indicated by Parties in the right hand column of the questionnaire by ticking the box stating “yes” and accordingly, the corresponding information should also be updated. Using “track changes” function of the ‘Word’ program is recommended to update the information. If there is no change in the information, it is sufficient to indicate it in the right hand column of the questionnaire by ticking the box stating “no”.

Part I: covers issues such as designation of Competent Authority and Focal Point; national definitions of waste; national definitions of hazardous waste; restrictions on transboundary movements of hazardous wastes and other wastes; control procedure of the transboundary movements of waste; reduction and/or elimination of the generation of hazardous wastes and other wastes; reduction of the amount of hazardous wastes and other wastes subject to transboundary movements; effect on human health and the environment; bilateral, multilateral or regional agreements or arrangements; disposal and recovery facilities and sources of technical and financial assistance.

Part II: Annual reporting covers those issues for which reporting is required on an annual basis. For the ease of electronic reporting and processing of the reported data/information, Part II: Annual reporting is divided into two sections namely, Section A and Section B.

Part II: Section A covers issues such as export/import hazardous wastes and other wastes and generation of hazardous wastes and other wastes.

Part II: Section B covers issues such as disposals, which did not proceed as intended and accidents occurring during the transboundary movement and disposal of hazardous wastes and other wastes.

Some of the general guidelines to fill in the questionnaire are:

- Complete the questionnaire in English.
- Ensure that all quantities are in metric tons.
- Complete the questionnaire by providing information/data in the required format.
- Provide an electronic version of the completed questionnaire, if possible, or use a typewriter or else handwritten in block letters for legibility.

The manual could be referred for more information, which is available in all six United Nations languages (Arabic, Chinese, English, French, Russian and Spanish).

The questionnaire and the manual are available both in hard copy as well as in electronic version from the secretariat (Part I and Part II: Section B of the questionnaire are in Word; and Part II: Section A of the questionnaire is in Excel. The manual is in Word).

PART I: STATUS OF INFORMATION (for the year 2008)

Note: If there is any update to the pre-filled answer provided in the middle column by your country to this query since the last update, please indicate so on the right column and update all relevant information accordingly!

	<p>According to the Act No. 223/2001 Coll. of Laws on waste and on amendment of certain acts as amended - hazardous waste shall mean waste featuring one or several hazardous characteristics listed in Annex 4 Hazardous characteristics of wastes (H codes). The Annex 4 is equal to the Annex 3 of the EU Directive 91/689/EEC. The Decree No 284/2001 Coll. of Laws enacting Waste Catalogue as amended by subsequent regulations harmonized with European Waste Catalogue distinguishes two waste categories: - non-hazardous; - hazardous. The annex 2 of this Decree refers to the Basel Convention list of hazardous waste characteristics (H codes). Hazardous wastes are considered wastes:</p> <p>a) Listed in Annex VIII to the Basel Convention;</p> <p>b) Designated as hazardous in the Waste Catalogue;</p> <p>c) Included in the Amber List of Wastes, or included in the Red List of Wastes; and</p> <p>d) Listed in Annex IX to the Basel Convention and containing substances listed in Annex I to the Basel Convention within a scope causing the occurrence of dangerous properties listed in Annex III to the Basel Convention. The Annex I of the Basel Convention is used for identification of hazardous wastes in the reporting.</p>

There are marked with the letter "N". A waste codes ending with two digits "99" (wastes not otherwise specified) have no category. Waste holders classify their waste and eliminate unjustified waste classification into the category non-hazardous in the case, when the composition of the waste is adequately defined and based on its composition it is possible to classify this waste explicitly as hazardous one. According to the first digits of the waste code a source of generation can be identified and then to address the waste a relevant code listed in Annexes I, II, and VIII. In some cases it is not easy to address relevant Y code to a specific code considering the range of Y codes listed in the Annex 1. On the other hand sometimes it is possible to address one or more Y codes according to the Annex 1 of the Basel Convention to one code of hazardous waste listed in the EU-waste list.</p> <p>The national definition of hazardous waste covers wastes other than those listed in Annexes I, II and VIII of the Basel Convention. The Secretariat of the Basel Convention has made the information transmitted to it, pursuant to article 3 of the Basel Convention, available on the website of the Basel Convention (http://www.basel.int/natdef/frsetmain.php).</p> <p>Since 12 July 2007 the transboundary movements of wastes have been regulated by the Regulation (EC) No 1013/2006 of the European Parliament and of the Council on shipments of waste and related regulations. Pursuant to Article 63 (3) of the Regulation (EC) No 1013/2006, until 31 December 2011 all shipments to Slovakia of waste for recovery listed in Annexes III and IV and shipments of waste for recovery not listed in those Annexes shall be subject to the procedure of prior written notification and consent in accordance with Title II of this Regulation.</p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
