

ERS Basel 2020

Party: Slovakia

Note to the Focal Point about important features and key updates to the electronic reporting system

1) Pre-filling of the questionnaire for the year 2020

To assist you in submitting the national report, the online reporting questionnaire has been pre-filled with the most recent information submitted to the Secretariat when this was considered appropriate. Pre-filling has been done for question 1 to 7 and tables 1, 2, 3 and 6.

It is essential that you carefully verify that the information used for pre-filling is still valid and update it as necessary.

2) Alerts about incomplete or invalid answers

Alerts are provided by the ERS to assist you in identifying incomplete or invalid answers.

When you save changes to the questionnaire, an alert also appears at the top of the page to highlight the pages that may contain incomplete or invalid answers. Within each page of the questionnaire, you can click on the “check for errors” button to identify incomplete or invalid answers.

Note that these alerts are intended to assist you in completing the report and do not prevent its submission. Please contact the Secretariat if you encounter difficulties in submitting the report (see item 5 below).

3) Importing data on the export (table 4) and import (table 5) of hazardous wastes and other wastes

The online reporting questionnaire provides you with several options for filling in tables 4 and 5.

One option (option B) is for you to upload an Excel file and then import the uploaded data into the tables. For the data to be accepted by the ERS, please make sure to use the provided Excel file template and to follow the validation rules. Both are available for download on the pages of the online reporting questionnaire containing tables 4 and 5. Also available is a list of ISO codes for States recognized by the United Nations to assist you in filling out columns 7 and 8 of tables 4 and 5.

4) Uploading an Excel file containing the required information for tables 7, 8 and 9

The online reporting questionnaire provides you with the option of uploading an Excel file for providing the information requested in tables 7, 8 and 9.

An Excel template is available for download on the pages 15, 16 and 17 of the online reporting questionnaire containing tables 7, 8 and 9, respectively. You are invited to use this template for the

Excel file you upload so as to facilitate comparability of the data provided.

Please note that if you choose to upload an Excel file instead of filling in the table line-by-line, an alert will still appear indicating that the page contains incomplete or invalid answers (because the table is empty) but it should be disregarded in this case.

5) Submitting the report

When you are ready to submit the report, please proceed to the last page of the questionnaire and click on the “Submit” button that appears in the menu bar at the top of that page.

Note that the system will issue an alert about pages that may contain incomplete or invalid answers. The alert is intended to assist you in reviewing the report and does not prevent its submission. After making any necessary change to the report, please click again on the “Submit” button to submit the report. Please contact the Secretariat if you encounter difficulties in submitting the report.

Electronic Reporting System of the Basel Convention (Year: 2019)

Competent Authority and Focal Point, Measures to Implement and Enforce the provisions of the Convention

Competent Authority information

1a - Designated Competent Authority to the Basel Convention.

1b.3 Upload supporting documents.**1c - Measures to implement and enforce the provisions of the Convention**

(Articles 4.4, 9.5 and 13.3(c))

1c (i) Has your country adopted legislation to implement the provisions of the Basel Convention?

☒ Yes

☐ No

**1c (ii) Does the legislation make provision to prevent illegal traffic of hazardous and other wastes?
(Articles 4.4, 9.5 and 13.3(c)) (optional)**

☒ Yes

☐ No

If yes, please specify:

According to the Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended, Article 106 the inspectorate

a) is a waste management administrative authority (§ 112),

c) decides in contested cases on whether a given good constitutes waste in the case of transboundary transport,

d) is authorised to inspect documents in the field of transboundary waste movement pursuant separate legislation [Regulation (EC) No. 1013/2006 as amended. Regulation (EC) No. 1418/2007 of 29 November 2007 (OJ L 316, 4 December 2007), as amended] and pursuant to this Act, conduct physical inspections of waste, and take and analyse waste samples at the place of origin of the waste, at the notifier or recipient of the waste, at border crossings and in the entire territory of the Slovak Republic,

e) monitors transboundary movement of suspected electrical and electronic equipment (EEE) and pursuant to Article 88 (2) calls for the submission of documents,

g) monitors transboundary shipment of used batteries and accumulators not classified as waste according Article 42 (6) and calls for the submission of documents pursuant to Article 88a (2).

According to the Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended, Article 111

(1) In cases of transboundary waste movement by road, the customs authority and Customs Criminal Office verify whether:

a) the waste is furnished with the documents pursuant to separate legislation [Regulation (EC) No. 1013/2006 as amended. Regulation (EC) No. 1418/2007 of 29 November 2007 (OJ L 316, 4 December 2007), as amended],

b) transported goods which are not accompanied by the documents required pursuant to the special regulations [Regulation (EC) No. 1013/2006 as amended. Regulation (EC) No. 1418/2007 of 29 November 2007 (OJ L 316, 4 December 2007), as amended] are not waste,

c) the transboundary waste movement is not in violation of separate legislation [Regulation (EC) No. 1013/2006 as amended. Regulation (EC) No. 1418/2007 of 29 November 2007 (OJ L 316, 4 December 2007), as amended],

d) the waste being transported corresponds to the facts according to the enclosed documents,

e) shipped suspected EEE is not waste and pursuant to Article 88 (2) calls for the submission of documents,

f) shipped used batteries and accumulators not classified as waste according Article 42 (6), not classified as used batteries and accumulators according Article 42 (6) and calls for the submission of documents pursuant to Article 88a (2).

(2) During a check, the customs office and Customs Criminal Office are authorised to detain vehicles, command vehicles to stop at a suitable location, inspect documents, the waste being hauled, take and analyse samples and conduct photodocumentation.

(3) If the customs office or Customs Criminal Office determines that the transboundary waste movement constitutes unlawful transport pursuant to separate legislation [Article 2(35) of Regulation (EC) No. 1013/2006 as amended] or that the transboundary waste movement is being conducted in conflict with the permit, it will order the transport to stop and temporarily detain the vehicle.

(4) If the customs office or Customs Criminal Office detects a violation of separate legislation [Article 2(15) of Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste (OJ L 190, 12 July 2006), as amended. Commission Regulation (EC) No. 1418/2007 concerning the export for recovery of certain waste listed in Annex III or IIIA to Regulation (EC) No. 1013/2006 of the European Parliament and of the Council to certain countries to which the OECD Decision on the control of transboundary movements of wastes does not apply (OJ L 316, 4 December 2007), as amended] during transboundary waste movement, it shall inform the Ministry and

inspection without delay. Upon receiving the information, the Ministry or inspection shall decide on further proceedings without delay, in which it may determine a location for the shipper to detain the vehicle until it is returned, recovered or disposed of pursuant to separate legislation [Articles 22 to 25 of Regulation (EC) No. 1013/2006 as amended].

(5) The costs connected with interrupting the transport and temporarily detaining the vehicle pursuant to paragraph 3, driving the vehicle to the location determined pursuant to paragraph 4, parking the vehicle and potential transloading, storage or other handling of the waste shall be borne by the shipper. The Ministry, inspection and customs authorities or Customs Criminal Office are not accountable for damages caused to the shipper which took place as a result of detaining the vehicle pursuant to paragraphs 3 and 4.

According to the Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended, Article 115 (1) an offence is committed by a person who

ac) performs transboundary waste movement in a manner contrary to Part Seven of this Act (§ 84 through 88).

According to the Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended, Article 117

(5) The competent state administrative authority for waste management will impose a fine from EUR 2 000 to EUR 250 000 upon legal persons or sole traders who violate obligations pursuant to:

Article 84 (4) - waste generated in the Slovak Republic is preferably to be disposed in the Slovak Republic,

Article 88 (2) - a holder of used EEE which is the subject of the planned or already performed transboundary movement is obliged to safeguard and store the following documents relating to said used EEE for three years and present them without delay to the competent waste management administrative authority in the event that said used EEE becomes suspicious EEE in the interest of demonstrating that it is not WEEE:

a) accompanying documents and results of testing or assessment,

b) applicable transport document pursuant to separate legislation [Convention on the Contract for the International Carriage of Goods by Road (CMR) (Decree of the Minister of Foreign Affairs No. 11/1975) as amended],

c) declaration on the assumption of responsibility,

d) a declaration that none of the materials and equipment that are the subject of transboundary transport are waste,

Article 88 (4) - a holder of used EEE which is the subject of planned or already conducted transboundary transport is obliged to suitably protect said used EEE from damage during transport, handling and unloading, in particular by means of sufficient packaging and cargo securing.

Article 88a - (2) A holder of used batteries and accumulators, which are not waste according to Article 42 (6) and which are subject of the planned or already performed transboundary movement is obliged to safeguard:

a) accompanying documents and results of testing or assessment,

b) immediate submission of documents pursuant to letter a) on the basis of a request from the competent body of the state administration of waste management,

c) carrying out cross-border transport by means of transport which comply with the provisions of the International Agreement on the Transport of Dangerous Goods (ADR) (Implementing Decree of the Minister of Foreign Affairs No. 64/1987) and amended. Convention concerning International Carriage by Rail (COTIF) (Implementing Decree of the Minister of Foreign Affairs No. 8/1985). Amendments to the Regulation for the International Carriage of Hazardous Waste by Rail (RID) (Notification No. 15/2001 Coll.)), If it does not carry out cross-border transport itself, it is obliged to ensure cross-border transport with a carrier authorized under special regulations (For example Act No. 513 / 2009 on railroads and on amendments to certain acts, Act No. 56/2012 on road transport, as amended),

d) declaration on the assumption of responsibility,

e) a declaration that none of the battery and accumulator that are the subject of transboundary transport are waste,

Article 88a - (4) A holder of used batteries and accumulators, which are not waste according to Article 42(6) and which are subject of the planned or already performed transboundary transport is obliged to provide adequate protection against damage to batteries and accumulators during transport, loading and unloading, in particular through adequate packaging and proper storage of the load.

(6) the competent state administrative authority for waste management will impose a fine from EUR 4 000 to EUR 350 000 upon legal persons or sole traders who violate obligations pursuant to:

Article 84 (3) - transboundary movement of waste from another Member State to the Slovak Republic and import of waste from a non-Member State to the Slovak Republic for the purpose of disposal it is prohibited, unless otherwise determined by an international treaty to which the Slovak Republic is party.

Article 84 (5) - it is prohibited to:

- a) to organize, mediate or otherwise engage in the transboundary movement of waste in contravention of this Part of Act on Waste,
- b) import/export/transit to/from/through third countries or import the waste to the territory of the Slovak Republic, transit of waste through the territory of the Slovak Republic or export of waste from the territory of the Slovak Republic contrary to this part of the law,
- c) carry out transboundary movements of waste in contravention of the conditions laid down in the consents to the transboundary movement of waste under this Part of the Act.

1c (iii) Does the legislation provide that illegal traffic is criminal?

(Articles 4.3, 4.4, 9.5 and 13.3(c)) (optional)

☒ Yes

☐ No

If yes, what are the punishments provided:

☒ Fine

☒ Prison

☐ Other : (Please specify)

1c (iv) Please attach the full text of your legislation(s) to implement the provisions of the Basel Convention, including any legislation referred to in response to other questions or provide the link where the legislation can be found:

Wastes Controlled for the Purpose of Transboundary Movement

2a Is there a national definition of waste used for the purpose of transboundary movements of waste?

(Articles 2.1 and 13.3(c))

☒ Yes

☐ No

If yes, please provide the text of the national definition of waste:

According to the Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended, Article 2 (1) a waste means a movable object or substance which the holder discards or intends or is required to discard under this Act or a specific regulation (for example Act No. 355/2007 on the protection, promotion and development of public health and on amendments to certain acts, Act No. 362/2011 on medicinal products and medical devices and on amendments to certain acts, as amended).

The national waste definition refers to the waste definition of the Directive 2008/98/EC of the European Parliament and of the Council on waste and repealing certain Directives, as amended

The Decree of the No. 365/2015 Coll. establishing Waste Catalogue defines two categories of wastes: a) non-hazardous, b) hazardous.

The Decree. No. 320/2017 amending Decree No. 365/2015 Coll. establishing Waste Catalogue entered into force in the year 2018 (from 1st January 2018) and added a new hazardous waste 20 01 05 - packaging containing residues of or contaminated by dangerous substances including empty pressure containers.

2b Do you have a national definition of hazardous wastes as per Article 1.1(b), which includes wastes in addition to those listed in annexes I, II and VIII?

(Articles 3.1, 13.2(b) and 13.3(c))

☒ Yes

☐ No

Has this definition been changed in the current reporting year?

☐ Yes

☒ No

(i) Please specify the national definition of hazardous wastes:

According to Article 2 (9) of the Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended, hazardous waste means waste which displays one or more of the hazardous properties listed in Annex of a specific regulation

(Commission Regulation (EU) No. 1357/2014 replacing Annex III to the Directive of the European Parliament and of the Council 2008/98/EC on waste and repealing certain Directives).

(10) waste, which is not hazardous, is the waste, for which the point 9 is not applied (in force from July 2020)

(ii) Tick the box or boxes below indicating the list or lists containing such wastes and, in the table below or as an attachment, list the wastes.

☐ OECD

☒ EU-Waste List

☒ National (specify under remarks)

☐ Other : (specify under remarks)

General remarks, if any:

Slovakia as a member state of the European Union transposed the Directive 2008/98/EC of the European Parliament and of the Council on waste and repealing certain Directives, as amended and the European Waste Catalogue into national legislation.

According to the Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended - hazardous waste means waste which displays one or more of the hazardous properties listed in Annex of a specific regulation - Commission Regulation (EU) No. 1357/2014 of 18 December 2014, replacing Annex III to the Directive of the European Parliament and of the Council 2008/98/EC on waste and repealing certain Directives (OJ.V. L 365, 19.12.2014). The Annex III (Properties of waste which render it hazardous) is broader than the list of hazardous characteristics contained in Annex III to the Basel Convention.

The Decree No. 365/2015 Coll. establishing Waste Catalogue as amended by Degree No. 320/2017 covers all types of hazardous waste listed in the European Waste Catalogue and additionally it covers one hazardous waste which is not under the European Waste Catalogue: 20 01 05 - packaging containing residues of or contaminated by dangerous substances including empty pressure containers.

Waste considered as hazardous waste:

a) Listed in Annex VIII to the Basel Convention;

b) Designated as hazardous in the Waste Catalogue;

c) Listed in Annex IX to the Basel Convention and containing substances listed in Annex I to the Basel Convention within a scope causing the occurrence of dangerous properties listed in Annex III to the Basel Convention.

The European Waste Catalogue is not compatible with the Annexes under the Basel Convention and therefore it is also difficult to classify the individual waste codes.

Since 12 July 2007 transboundary movements of wastes have been regulated by the Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste as amended.

(iii) If possible, attach a list or provide it in the following table. (optional)

National waste codes	Type of waste	Remarks
20 01 05*	packaging containing residues of or contaminated by dangerous substances including empty pressure containers	-

Please use the following link to download the table in excel.

(1) The purpose of this request is to list the additional hazardous wastes according to Article 1(1)b. If the national definition is not based on Annex I of the Basel Convention (Y-codes), the national or regional waste code has to be provided. Please ensure that your listing is as precise and clear as possible.

(2) Not required to fill in, if you have provided the waste code in column 1.

(iv) Specify any requirements (procedures) concerning transboundary movements that are applicable to those wastes:

☒ The same procedures as for wastes controlled according to Basel Convention (Annex VIII and II)

☐ Other requirements (procedures) : (Please specify)

2c Are there any wastes that are not hazardous, but require special consideration when subjected to transboundary movement ?

(Article 4.11 and 13.3(i)) (optional)

☒ Yes

☐ No

(i) Please specify :

Waste which are not hazardous, but classified neither to Green (Annex III), neither to Amber list (Annex IV) No. 1013/2006 of waste according to Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste an amended.

(ii) Tick the box or boxes below indicating the list or lists containing such wastes and, in the table below or as an attachment, list the wastes.

☐ OECD

☐ EU-Waste List

☐ National (specify under remarks)

☒ Other : (specify under remarks)

General remarks, if any:

Waste which are not hazardous, but classified neither to Green (Annex III), neither to Amber list (Annex IV) No. 1013/2006 of waste according to the Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste an amended.

(iii) If possible, attach a list or provide it in the following table.

National waste codes	Type of waste	Remarks
----------------------	---------------	---------

(1) The purpose of this request is to list the additional wastes which require special consideration when subject to transboundary movement. The national or regional waste code should be provided. Please ensure that your listing is as precise and clear as possible. (2) Not required to fill in, if you have provided the waste code in column 1

(iv) Specify any special considerations or requirements concerning transboundary movements that are applicable to those wastes:

-

Restrictions on and conditions for Transboundary Movement of Hazardous Wastes and Other Wastes

**3a Has the amendment to the Basel Convention (Decision III/1) been implemented in your country?
(Articles 13.2(c), 13.2(d) and 13.3.(c))**

☒ Yes

☐ No

Remarks:

**3b Are there in your country any restrictions on the export of hazardous wastes and other wastes for final disposal (Annex IV A)?
(Articles 13.2(d), 13.3(c) and 13.3(i)).**

☒ Yes

☐ No

If yes, please specify:

(i) The nature of the restriction:

☐ Total prohibition

☒ Partial restriction

If partial restriction (e.g. depending on the intended final disposal operation) please specify the nature of the restriction:

Article 34 of the Regulation (EC) No. 1013/2006 deals with an export prohibition (export of waste for disposal) except to EFTA countries.

Articles 84 (4) and 86 of the national Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended.

(ii) The country or region covered by this restriction:

☐ All countries

☐ Non Parties to BC

☐ Non Annex VII countries

☐ Non OECD countries

☐ Non EU countries

☒ Other : (Please specify)

Article 34 of the Regulation (EC) No. 1013/2006 deals with an export prohibition (export of waste for disposal) except to EFTA countries.

(iii) The wastes covered by the restrictions:

☐ All wastes covered by BC

☐ Annex VIII BC

☐ Annex II BC

☐ Amber List OECD

☐ Amber List EU

☐ Article 1(1)b nationally defined hazardous wastes

☒ Other : (Please specify)

The Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste an amended (12 July 2007).

If possible, attach a list or provide it in the following table (optional)

Waste code	Type of waste	Remarks (if any)
------------	---------------	------------------

(1) Not required to fill in, if you have provided the waste code in column 1.

Attach a list:Upload files

(iv) If possible, provide relevant legislation and its entry into force (optional)

Specify relevant legislation and its entry into force:

Since 12 July 2007 the transboundary movements of wastes have been regulated by the Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste. According to the Regulation (EC) No. 1013/2006, Article 3 (1) a shipments of all wastes shall be subject to the procedure of prior written notification and consent if destined for disposal operations. Objections to shipments of waste destined for disposal can be raised in compliance with an Article 11 of the Regulation (EC) No. 1013/2006.

Articles 84 (4) and 86 of the national Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended.

(v) Remarks:

3c Are there in your country any restrictions on the export of hazardous wastes and other wastes for recovery (Annex IV B)?

(Articles 13.2(d),13.3(c), 13.3(i))

☒ Yes

☐ No

If yes, please specify:

(i) The nature of the restriction:

☐ Total prohibition

☒ Partial restriction

If partial restriction (e.g. depending on the intended Annex IV B disposal operation), please specify the nature of the restriction:

The Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste an amended (12 July 2007).

Article 86 of the national Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended.

(ii) The country or region covered by this restriction:

☐ All countries

☐ Non Parties to BC

☐ Non Annex VII countries

☐ Non OECD countries

☐ Non EU countries

☒ Other : (Please specify)

Export from the Community of wastes destined for recovery in countries to which the OECD Decision does not apply are prohibited (Article 36 (1) of the Regulation (EC) No. 1013/2006). Commission Regulation (EC) No. 1418/2007 concerning the export for recovery of certain waste listed in Annex III or IIIA to Regulation (EC) No. 1013/2006 to certain countries to which the OECD Decision on control of transboundary movements of wastes does not apply.

(iii) The wastes covered by the restrictions:

☐ All wastes covered by BC

☐ Annex VIII BC

☐ Annex II BC

☐ Amber List OECD

☐ Amber List EU

☐ Article 1(1)b nationally defined hazardous wastes

☒ Other : (Please specify)

The Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste an amended (12 July 2007). Commission Regulation (EC) No. 1418/2007 concerning the export for recovery of certain waste listed in Annex

III or IIIA to Regulation (EC) No. 1013/2006 to certain countries to which the OECD Decision on control of transboundary movements of wastes does not apply.

If possible, attach a list or provide it in the following table (optional)

Waste code	Type of waste	Remarks (if any)
------------	---------------	------------------

(1) Not required to fill in, if you have provided the waste code in column 1.

(iv) If possible, provide relevant legislation and its entry into force (optional)

Specify relevant legislation and its entry into force:

According to the Act No. 223/2001 Coll. on waste all waste destined for recovery is banned, except of export from Slovakia to OECD Member States. This provision was replaced by provisions in Regulation (EC) No.1013/2006.

Since 12 July 2007 the export of hazardous waste and other wastes for recovery is regulated by the Regulation (EC) No. 1013/2006 and further relevant regulations. Shipments of all wastes shall be subject to the procedure of prior written notification and consent according to the Regulation (EC) No. 1013/2006, Article 3 (1) b), (2), (3), (4), (5). Objections to shipments of waste destined for recovery can be raised in compliance with an Article 12 of the Regulation (EC) No. 1013/2006.

Article 86 of the national Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended.

(v) Remarks:

3d Are there in your country any restrictions on the import of hazardous wastes and other wastes for final disposal (Annex IV A)?

(Articles 13.2(c), 13.3(c) combined with 4.1(a), 13.3(i))

☒ Yes

☐ No

If yes, please specify:

(i) The nature of the restriction:

☐ Total prohibition

☒ Partial restriction

If partial restriction (e.g. depending on the intended final disposal operation) please specify the nature of the restriction:

Articles 84 (3) and 86 of the national Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended.

(ii) The country or region covered by this restriction:

- ☒ All countries
- ☐ Non Parties to BC
- ☐ Non Annex VII countries
- ☐ Non OECD countries
- ☐ Non EU countries
- ☐ Other : (Please specify)

(iii) The wastes covered by the restrictions:

- ☐ All wastes covered by BC
- ☐ Annex VIII BC
- ☐ Annex II BC
- ☐ Amber List OECD
- ☐ Amber List EU
- ☐ Article 1(1)b nationally defined hazardous wastes

Waste code	Type of waste	Remarks (if any)
------------	---------------	------------------

(1) Not required to fill in, if you have provided the waste code in column 1.

(iv) If possible, provide relevant legislation and its entry into force (optional)

Specify relevant legislation and its entry into force:

Since 12 July 2007 the import of hazardous waste and other wastes for final disposal is regulated by relevant articles of the Regulation (EC) No. 1013/2006.

Articles 84 (3) and 86 of the national Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended.

(v) Remarks:

3e Are there in your country any restrictions on the import of hazardous wastes and other wastes for recovery (Annex IV B)?

(Articles 13.2(c), 13.3(c) combined with 4.1(a), 13.3(i))

☒ Yes

☐ No

If yes, please specify:

(i) The nature of the restriction:

☐ Total prohibition

☒ Partial restriction

If partial restriction (e.g. depending on the intended Annex IV B disposal operation), please specify the nature of the restriction:

Since 12 July 2007 the imports of hazardous waste and other wastes for recovery is regulated by relevant articles of the Regulation (EC) No. 1013/2006.

Article 86 of the national Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended.

(ii) The country or region covered by this restriction:

☐ All countries

☐ Non Parties to BC

☐ Non Annex VII countries

☐ Non OECD countries

☐ Non EU countries

☒ Other : (Please specify)

Imports prohibited except from an OECD Decision country or a country Party to the Basel Convention or with an agreement in place or from other areas during situations of crisis or war (Article 43 of the Regulation (EC) No. 1013/2006).

(iii) The wastes covered by the restrictions:

☐ All wastes covered by BC

☐ Annex VIII BC

☐ Annex II BC

state of import:

All languages

state of transit:

All languages

4c Do you have information requirements in addition to those listed in Annex V of the Basel Convention (and

**displayed in the Notification and Movement document forms)?
(Article 6, 4(11) combined with Article 13.3(i))**

☒ Yes

☐ No

If yes, please specify:

Since 12 July 2007 the transboundary movements of wastes is covered by the Regulation (EC) No. 1013/2006. Additional information that may be requested by the competent authority is given in Annex II, part 3 of the Regulation (EC) No. 1013/2006.

Reduction and/or Elimination of the Generation of Hazardous Wastes and Other Wastes

5 Have measures been undertaken for development of technologies for the reduction and/or elimination of the amount of hazardous wastes and other wastes generated?

(Articles 4.2(a) and 13.3(h))

☒ Yes

☐ No

If yes, please specify at least one of the following measures:

☒ National strategies/policies

Provide details:

The Waste Management Programme of the Slovak Republic for the period from 2016-2020. The Waste Prevention Programme of the Slovak Republic for the period from 2019-2025.

The Waste Management Programme of the Slovak Republic for the period from 2016–2020 set the following Objectives of Waste Management till 2020:

The main objective of waste management of the SR till 2020 is to minimise the negative effects of waste production and management on human health and the environment. To achieve the set objectives, it will be necessary to apply and observe properly the binding hierarchy of waste management in order to increase waste recycling in particular for the area of municipal wastes and construction and demolition wastes in compliance with the requirements of the Waste Framework Directive. In waste management, it is necessary to further apply the principles of proximity, self-sufficiency, and for the selected waste streams, also extended producer responsibility for new waste streams, in addition to the general "polluter pays" principle. In building the infrastructure of waste management, it is necessary to apply the requirement of Best Available Techniques (BAT) or Best Environmental Practice (BEP). For the period of 2016 to 2020, an essential diversion of waste disposal from landfilling in particular for municipal wastes remains the strategic objective of waste management of the SR.

The Waste Prevention Programme of the Slovak Republic for the period from 2019-2025 in accordance with the provisions of the Directive 2008/98/EC of the European Parliament and of the Council on waste and repealing certain Directives. The main objective of the program is to depart from material recovery, as the only declared priority in waste management in the Slovak Republic, to the waste prevention. The main goal for hazardous waste is to continue in the decreasing of the amount of hazardous waste mainly by the support of eco – design in accordance with the EU Action plan for circular economy.

Act of the National Council of SR No. 514/2008 Coll. on management of waste from extractive industries on amendment of certain acts;

Government Order of the SR No. 153/2004 Coll. setting binding limits and dead-lines for the scope of reuse of parts of the end of life vehicles, for recovery of the wastes coming from processing of end of life vehicles and their recycling;

Government Order of the SR No. 330/2018 Coll. laying down the rates of the waste deposit fee and the details relating to the redistribution of income from the waste deposit fee ;

Decree of MoE SR No. 465/2013 Coll. on technical requirements for electrical and electronic equipment, as amended;
 Decree of MoE SR No. 371/2015 Coll. on implementation of certain provisions of the Act on wastes as amended;
 Decree of MoE SR No. 372/2015 Coll. on waste landfills and on temporary storage of metallic mercury as amended by Degree No. 323/2017;
 Decree of MoE SR No. 382/2018 Coll. on landfilling and storage of mercury waste (shall enter into force on 1 January 2019);
 Decree of MoE SR No. 373/2015 Coll. on extended producers responsibility as amended;
 Decree of MoE SR No. 365/2015 Coll. establishing Waste Catalogue as amended as amended by Degree No. 320/2017;
 Decree of MoE SR No. 366/2015 Coll. on registration and reporting obligations as amended;
 Decree of MoE SR No. 255/2010 Coll. which implements management of waste from extractive industries on amendment of certain acts;
 Notification of the MoE SR No. 368/2015 Coll. on the issue of Decree 1/2015 on uniform methods of analytical control of waste;
 Notification of the Ministry of the Foreign Affairs of the SR No. 593/2004 Coll. on conclusion of the Stockholm Convention on POPs;
 Notification of the Ministry of the Foreign Affairs of the SR No. 60/1995 Coll. on the accession of the Slovak Republic to the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and their Disposal;
 Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste as amended
 Commission Regulation (EC) No. 1418/2007 concerning the export for recovery of certain waste listed in Annex III or IIIA to Regulation (EC) No. 1013/2006 of the European Parliament and of the Council to certain countries to which the OECD Decision on control of transboundary movements of wastes does not apply;
 Commission Decision No. 2010/438/EU extending the derogation period for Bulgaria to raise objections to shipments of certain waste to Bulgaria for recovery under Regulation (EC) No. 1013/2006 of the European Parliament and of the Council;
 Commission Implementing Decision extending the derogation period for Romania to raise objections to shipments of certain waste to Romania for recovery under Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste (2011/854/EU);
 Treaty of Accession of the SR to the EU (Annex XIV, 9(B) (1).

According to the Act No. 79/2015 Coll. on waste and on amendments to certain acts as amended, Article 6

(1) The waste management system hierarchy shall follow a priority order as follows:

- a) prevention of waste,
- b) preparing for reuse,
- c) recycling,
- d) other recovery, for example energy recovery, and
- e) disposal.

(2) Only specific waste streams may depart from the waste management system hierarchy where this is justified by life-cycle thinking on the overall impacts of the generation and management of such waste and if so provided in this Act.

(3) Waste prevention means measures taken before a substance, material or product has become waste, that reduce

- a) the quantity of waste, including through the reuse of products or the extension of the life span of products,
- b) the adverse impacts of the generated waste on the environment and human health, or
- c) the content of hazardous substances in materials and products.

(4) Prevention of packaging waste means the reduction of

- a) the quantity of materials and substances contained in packaging and in packaging waste and their harmfulness for the environment and
- b) the quantity of packaging and packaging waste and their harmfulness for the environment at production process level and at the marketing, distribution, utilisation and elimination stages; prevention will be achieved, in particular, by developing products and technology that are more environment-friendly,
- c) consumption of light plastic bags.

(5) Legal persons and sole traders who manufacture products shall take into account

- a) when producing them, the need to give priority to technology and processes saving natural resources and reducing the generation of unusable, especially hazardous, waste from these products,
- b) the need for informing the public about the method of recovery or disposal of waste from the product and its parts, in

particular when designing the product packaging, instructions for use or other product documentation.

(6) Waste producers shall prevent the generation of waste from their operations and reduce its quantity and hazardous properties. Waste that cannot be prevented must be recovered or disposed of in accordance with paragraph 1 in a manner that does not pose a threat to human health and the environment and that complies with this Act and other acts of general application.

(7) If waste prevention is impossible or inappropriate, it is necessary to utilise the materials and products by reusing them.

(8) Waste recovery by recycling that allows for raw materials to be extracted is permissible if waste prevention or the procedure referred to in paragraph 7 is impossible or inappropriate.

(9) Waste can be used as a source of energy if waste prevention or the procedure referred to in paragraphs 7 and 8 is impossible or inappropriate.

(10) Waste may be disposed of in a manner that does not pose a threat to human health and does not damage the environment if waste prevention or the procedure referred to in paragraphs 7 through 9 is impossible or inappropriate.

(11) The targets and binding limits for the waste management system are provided in Annex 3.

(12) Examples of economic instruments and other measures to provide incentives for the application of the waste hierarchy, are indicated in Annex 4a (In force from July 2020).

Reduction of the Amount of Hazardous Wastes and Other Wastes Subject to the Transboundary Movement

6 Have measures been undertaken for the reduction of the amount of hazardous wastes and other wastes subject to the transboundary movement?

(Articles 4.2(d) and 13.3(b)iv)

☒ Yes

☐ No

If yes, please specify at least one of the following measures:

☒ National strategies/policies

Provide details:

The Waste Management Programme of the Slovak Republic for the period from 2016-2020.

The Waste Management Programme of the Slovak Republic for the period from 2016-2020 includes the following measures for the period 2016-2020 :

- to not endanger human health and the environment in the SR as a consequence of transboundary movement of wastes,
- in the decision-making on matters of transboundary movement of wastes, to proceed pursuant to principles resulting from international and national legal regulations in force, in particular from Regulation (EC) No. 1013/2006 of the European Parliament and of the Council on shipments of waste (hereinafter "Regulation No. 1013/2006"),
- to support and actively develop the national and international cooperation in implementing Regulation No. 1013/2006, in particular in the area of control and methodology of transboundary movement of wastes with the neighbouring States and in the SR, with respective state administration authorities of waste management (District Offices, Slovak Environmental Inspection, municipalities) and state administration authorities in the area of taxes, fees and customs,
- to dispose the waste produced in the SR preferably in the SR. To permit the transboundary shipment of wastes from the territory of the SR to other EU Member States or export of wastes from the SR to non-EU Member States for the purpose of disposal only if the SR has no technical possibilities or necessary facility, capacity or suitable disposal centre for the disposal of such wastes in the way efficient and acceptable in terms of the environment, or if the respective wastes are demanded as a raw material for recycling or for the treatment industry in the country of destination/import,
- to prohibit the transboundary shipment of wastes from other EU MS to the SR and import of wastes from a non-EU MS to the SR for the purpose of disposal in compliance with the Act on Wastes and new Act on Wastes,
- to permit the transboundary shipment of wastes from other EU MS to the SR and import of wastes from a non-EU MS to the SR for the purpose of recovery only to a facility, which is licensed and operated for the respective type of waste in compliance with the valid legal regulations of the SR, and which has a sufficient capacity,
- within the framework of the permission process, to assess all the phases of waste management till its hand-over to the final waste recovery or disposal facility,
- to prohibit the transboundary shipment of wastes from other EU MS to the SR and import of wastes from a non-EU MS to the SR for the purpose of energy recovery of wastes using the activity R1 pursuant to Annex No. 2 in a waste incinerator designated as a waste recovery facility, if as a consequence of such transboundary shipment of wastes or import of wastes, national wastes would have to be disposed or treated in a way, which is not in compliance with the plan of the SR,
- the person performing the transboundary shipment of wastes from other EU MS to the SR or the import of wastes from a non-EU MS to the SR to the facilities intended for recovery using the activity R1 pursuant to Annex No. 2 in a waste incinerator designated as a waste recovery facility shall be obliged to submit a notification pursuant to Article 85 of the new Act on Wastes,
- during the transboundary shipment of mixed municipal wastes or wastes combined with mixed municipal wastes from

other MS to the SR and during the import of mixed municipal wastes or wastes combined with mixed municipal wastes from a non-EU MS to the SR, to proceed in compliance with Article 3 (5) of regulation No. 1013/2006, i.e. for such shipment to raise objections pursuant to Article 11 and 12 of Regulation No. 1013/2006,

- to permit transboundary shipment from the territory of the SR to other EU MS or export from the territory of the SR to a non-EU MS for the purpose of recovery of selected hazardous waste streams, for which objectives are set in Chapter 4.1, only if the SR has no technical possibilities or necessary facility, or there are not sufficient capacities for recovery or recycling of the respective hazardous waste, or the notifier or other legal entity or natural person in their name prove that the percentage of recovery or recycling in the facility for recovery or recycling of hazardous waste out of the territory of the SR is identical or higher than the percentage of recovery or recycling set in Chapter 4.1 Objectives and Data of Selected Waste Streams, and is provided through activities R2 – R9 pursuant to Annex No. 1 to the new Act on Wastes,
- the Ministry can prohibit transboundary movement of wastes if the notifier, consignee or a person authorised to act on behalf of the notifier or consignee taking part in this transboundary movement of wastes, was, by a legal decision,
 - a) found guilty of an offence as a consequence of an act, by which they committed illegal shipment,
 - b) found guilty, in the previous three years, of an offence as a consequence of other wrongful act in the area of waste management as mentioned in letter a) or
 - c) convicted, in the previous three years, of a crime against the environment,
- within the transboundary movement of wastes for the purpose of disposal, to apply the principle of self-sufficiency and proximity, and if applicable, to give priority to the principle of proximity over the principle of self-sufficiency,
- during planned and executed transboundary shipments of suspicious electrical equipment (i.e. electrical equipment, whose holder claims that it is not electrical waste and there is a suspicion that it is electrical waste) to check documentation in compliance with Article 88 (2) and (3) of the new Act on Wastes, with the objective to eliminate illegal shipments of such wastes,
- during planned and executed transboundary shipments of suspicious batteries and accumulators (i.e. batteries and accumulators, whose holder claims that they are not waste batteries and accumulators and there is a suspicion that they are waste batteries and accumulators) to check the accompanying documentation and shipments of suspicious batteries and accumulators in compliance with Act No. 79/2015 Coll. on wastes and on the amendment to certain acts, with the objective to eliminate illegal shipments of such wastes.

Table 5 - Import of hazardous wastes and other wastes in 2020
(Article 13.3(b) ii)

Did importation of hazardous wastes and other wastes take place in the reporting year?

☒ Yes

☐ No

If yes, would you like to provide a summary of detailed data from the table below?

☐ Yes

☒ No

If possible, provide a summary of detailed data from the table below (in metric tons). (optional)

Summary data

A Total amount of hazardous wastes under Art. 1(1)a imported:

B Total amount of hazardous wastes under Art. 1(1)b imported:

A+B Total amount of hazardous wastes imported:

C Total amount of other wastes imported (Annex II):

A+B+C Total amount of controlled waste imported:

TABLE 5 - Import of hazardous wastes and other wastes in 2019.

Basel Annex VIII, II or IX	Y Code	National Code	Type of waste	Hazardous characteristics	Amount imported (use dots for decimals, e.g. 20.15)	Countries of transit	Country of origin	Final disposal operation	Recovery operation

Remarks

Data on total amount of hazardous wastes and other wastes generated will be reported additionally.

If possible, upload detailed national statistics on the generation of hazardous wastes (1) (optional)

Table 7 - Disposals which did not proceed as intended(1)

(Article 13.3(b) iii)

Did disposals which did not proceed as intended occur in the reporting year?

☐ Yes

☒ No

If yes, please specify:

Date of the incident	Country of export	Country of import	Waste code	Type of waste	Amount in metric tons (use dots for decimals, e.g. 20.15)	Reason for the incident	Alternative measures taken

Upload Excel file containing the required information.

For uploading the Excel file, if possible, please use the Excel template available [here](#).
